SUMMARY

Final-year BCA student with a strong foundation in computer science and programming. Experienced in C++, Python, SQL, and front-end web development (HTML, CSS, JavaScript) with hands-on exposure to Flask. Passionate about building efficient applications, solving logical problems, and exploring web development. Seeking opportunities to grow as a software developer and contribute to impactful projects.

EDUCATION

GL Bajaj Institute Of Management And Technology **Jul 2023 – May 2026**
BCA in Computer Science *CGPA: 8.1*

Trident Public School, Muzaffarpur **Apr 2020 – May 2022**
Senior Secondary (CBSE) *84.8%*

TECHNICAL SKILLS

Languages: C++, Python, SQL

Web Development: HTML, CSS, JavaScript,

Core Concepts: Object-Oriented Programming, Database Management Systems,

Tools & Platforms: VS Code, Basic MS Office (Word, PowerPoint)

EXPERIENCE

PYTHON JUNIOR DEVELOPER **June 2025 - Aug 2025**
Success Innovative Technologies

- Developed web applications using Python and Flask.
- Built and maintain backend routes, APIs, and templates.
- Collaborated on small projects to implement features and fix bugs.

TECHNICAL PROJECTS

Mood-Based Quote and Music Generator Web App **Nov 2025 – Present**
(Group Project)

- Developed a web app using HTML, CSS, and JavaScript that displays mood-based quotes, changes background colors, and plays matching music based on user-selected moods.
- Integrated an interactive UI that dynamically responds to user input, creating a personalized and engaging mood-based experience.
- I implemented user login using a RESTful POST API built with Express.js, where the frontend sends credentials asynchronously and the backend validates them using a MySQL database.

Job Portal Web Application (Flask + MySQL) **JAN 2026**
(Personal Project)

- Developed a full-stack Job Portal Web Application using Flask and MySQL that allows users to register, login, view job listings, and apply with resume upload.
- Implemented session-based authentication and database management using SQLAlchemy ORM.
- Integrated frontend forms with backend routes to perform CRUD operations.

Amazon Homepage Clone (HTML, CSS) **Feb 2025**
(Personal Project)

- Created a static clone of Amazon's homepage using **HTML** and **CSS**, closely replicating its layout and design.
- Implemented responsive design and basic accessibility principles to ensure usability across devices.
- Strengthened core front-end skills by working with clean layouts, structured code, and consistent styling.

RELEVANT COURSEWORK

Data Structure and Algorithms, Object-Oriented Programming, Operating Systems,
Database Management Systems, Computer Networks and Software Engineering.
